Section I				
Manufacturer	Carlisle Brake & Fri	ction 920 Lake Ro	ad Medina, Ohio 44256	
Emergency Phone	330-725-4941		Effective Date	16-Mar-17
Chemical Name	Friction Material		Revision Date	16-Mar-17
Tradename	Sintered Friction Material			
Category	Inorganic-	953-2		

Section II-Hazardous Ingredients/Identity				
Component	OSHA-PEL (mg/m3)	ACGIH-TLV (mg/m3)	%	CAS No.
Iron	Total=15.0 Resp.= 5.0	10.0	Proprietary	7439-89-6
Carbon	Total=15.0 Resp.= 5.0	10.0	Proprietary	7782-42-5
Silicon Carbide	Total=15.0 Resp.= 5.0	10.0	Proprietary	409-21-2
Copper	1.0	1.0	Proprietary	7440-50-8
Tin	2.0	2.0	Proprietary	7440-31-5
Silica	10.0	0.0	Proprietary	14808-60-7

Section III Physical Characteristics			
Boiling Point	Cu-4680 F	Sp.Gr. (H <sub>2</sub> O = 1)	Cu-8.9
Vapor Press (mm Hg)	N/A	Solubility in Water	Not soluble
Reactivity in Water	N/A	Vapor Density	N/A
Melting Point	N/A	Color	Reddish colored powder
Appearance/Odor	Odorless		

Section IV-Fire and Explosion Data			
Flashpoint	N/A	Method Used	N/A
Flammable Limits (LEL/UEL)	N/A	Special Fire Fighting Proc.	None
Auto Ignition Temperature	Cu-Above 1290 F	Extinguishing Media	Graphite, dolomite, NaCl,
	700 C		CO2, foam, dry chemical
Unusual Fire and Explosion	Copper powder below 50 µm size range is classified as weakly explosive material.		
Hazards	When present as a dust cloud, will not explode readily in air. Not easily ignited.		

Section V-Reactivity Data		
Stability	Stable	
Incompatibility(Materials to Avoid)	N/A	
Hazardous Decomposition Products	N/A	
Hazardous Polymerization	Will not occur.	
Conditions to Avoid	Strong oxidizing agents.	

## *Material Saftey Data Sheet* (Complies with 29 CFR 1910.1200)

Section VI -H	lealth Hazards
Effects of Overexpo	osure:
-	a) Iron can cause coughing, slight upper respiratory irritation, and a metallic taste in the mouth.
	b) Chronic exposure to carbon as graphite dust can cause fribrosis, emphysema and corpulmale.
	c) Inhalation of high concentrations of copper dust may cause intense sneezing, nausea, weakness, and fever, hemolysis of red blood cells, deposition of hemofuscin in the liver and possible injury
	to lung cells.
	d) Silica:Coughing, shortness of breath, reduced pulmonary function. Effects maybe
	delayed, the disease usually being contracted over an extended period of exposure.
Skin:	Repeated exposure to copper (as salts) may casue dermatitis.
Emergency Proced	lures
Eye Contact:	Copper may cause conjunctivitis or ulceration and turbidity of the cornea. In case of contact, immediately flush with water for 15 min. including under the eyelids. Seek medical help if material cannot be adequately removed from the eye.
Skin Contact:	Wash thoroughly with soap and water.
Inhalation:	Following exposure to a large amount of dust, remove from exposure. If breathing has stopped, perform artificial respiration. Contact a physician.
Ingestion:	Seek medical advice immediately.

Section VII- Spill/Leak Procedures	
Handling, Storage	N/A
DOT Shipping Rules	N/A
Spill/Leak	Preferably wet methods or vacuum to clean up. Avoid dusting.
Waste Disposal Methods	Check with local counsel for applicable laws/regulations.

Section VIII-Special Protection/Control Methods		
Respiratory Protection/Ventilation Use a NIOSH approved respirator with appropriate filters where exposed to brake wear products. Use exhaust venhilation to be exposure below exposure limits.		
Protective Gloves	Recommended, particularly if sensitive skin.	
Eye Protection	Recommended.	
Other Protective Equipment	Long sleeve shirts recommended.	

## Section IX- Special Precautions

Store inside in dry area. Temperature 0-100F.

## Disclamer

The information comtained herein is based on data available at this time and is believed to be accurate. No warranty, however, is expressed or implied and in no event will Carlisle Brake & Friction be liable for incidental or consequential damages of any kind regarding the accuracy of this data or the results to be obtained from the use thereof.
