

Carlisle Brake & Friction is one of the largest steel brake friction suppliers for the global aerospace market. Original equipment manufacturers including Goodrich, ABS and Parker Hannifin, rely on our product quality, heat capacity, consistent performance and exceptional durability to meet the critical demands of today's aircraft. Carlisle's current product range includes friction discs, friction cups, friction linings, stators, rotors and insulators for commercial jets, general aviation aircraft, military aircraft, helicopters and gliders.

## Friction Discs | Friction Cups | Friction Linings | Stators | Rotors | Insulators

Carlisle Brake & Friction is a leading solutions provider for high performance and severe duty brake, clutch and transmission applications to OEM and aftermarket customers in the mining, construction, military, agricultural, motorsports, renewable energy, industrial and aerospace markets. Carlisle's brands, including Wellman Products Group, Carlisle Industrial Brake & Friction, Hawk Performance, Japan Power Brake, VelveTouch and Field Pro, offer a diverse range of the most highly engineered braking and friction products available today. With over 1,700 employees and 11 manufacturing facilities in the U.S., U.K., Italy, China, Japan and India, we serve over 100 leading original equipment manufacturers in 55 countries. Carlisle is the right choice for your new brake or friction design, no matter where you are in the world or what you want to be.
